"Your Easy Path to More Clients."

"Referrals Come to Me" Script

Use this "Referrals Come to Me" script from the Consistent Clients formula to help you easily attract referrals:

"This month we're trying to help as many people as possible with (XXX specific symptom/health issue—those who want to quit smoking).

Can you think of 1-2 people you can introduce me to?

They may work with you, be in PTA with you, go to church with you, etc. (XXX place)

Please introduce them to us by _____ (sending us both an email, giving them this flyer with gift certificate)."
